

ALPHATRUST e-SIGN[®]

FLEXIBLE e-SIGNATURE AND DOCUMENT PROCESS AUTOMATION

When conducting business in a digital world, you need a safe and flexible solution to not only deliver documents to clients electronically, but also have them signed quickly and securely. AlphaTrust e-Sign is an enterprise e-Signature solution that enables automation, ranging from simple send-a-document-for-signature to your most complex workflows.

AlphaTrust e-Sign is a fully-brandable, compliant e-Signature and document-process automation solution that securely digitises the creation of legally enforceable business records. Increase the efficiency of your daily workflow with AlphaTrust e-Sign through features like presenting disclosures, form filling, document approval, document and policy signature, and secure delivery.

KEEP YOUR BRAND IN THE SPOTLIGHT

iPipeline's white label e-Signature solution gives you full customisation of your document delivery and e-Signature experience to continue promoting your brand through the entire sales process. Easily modify the user experience to perfectly match your application. Customise a signature block or add a variety of transaction details and customised branding – the entire UX is in your hands!

BE MORE GREEN

Digitising not only boosts your efficiency, it also helps our planet! Reap the benefits of going paper-free. Did you know just how much of an impact going paperless will have on your carbon footprint? We can all do our part to help our planet and reduce deforestation, pollution from fossil fuels and wasted water.

COMPLIANCE IS KEY

Capturing an e-Signed document that is legally enforceable, secure, and compliant is a complex feat. AlphaTrust e-Sign is fully compliant with European, North American and various Asia Pacific laws and regulations, making it the vendor of choice for businesses. This e-Signature solution provides compliance with specific industry standards and regulations, including those for insurance, financial services, banking and more.

OPTIMISE STP (STRAIGHT THROUGH PROCESSING)

AlphaTrust e-Sign easily embeds into your existing applications to offer a seamless user experience – obtain a signature within the same application during the sales process. And with the ability to create seamless integrations you can achieve total straight-through processing and an optimised selling experience.

FEATURES

- Complete customisation and white-labelling to deliver an experience unique to your brand.
- Seamless integration into your preferred e-App and document delivery solutions.
- Robust Web Services APIs enabling finegrained process control, security control, and event management.
- Easily integrates with front-end and backend legacy and third-party systems.
- Extensible and pluggable architecture to meet your enterprise demands.
- One platform provides support for all three process approaches in the marketplace – integrated, standalone workflows, and ad-hoc send and sign.
- Ability to leverage iPipeline cloudbased deployment – on-premise option available.

BENEFITS

- Ability to fully customise and deliver the ideal user experience to wow your customers.
- Offers complete workflows, security, control, and auditability.
- Process simple e-signatures to more advanced and complex workflow automation.
- Our pricing model is more cost effective than others on the market.
- Provides national and international legal and regulatory compliance.
- Repeatable processes allow clients to leverage previous work.
