Working as part of our flexible, committed, award-winning team, you'll love our:

- Open plan, relaxed and focused environment
- Casual dress
- Life cover, Critical Illness Cover, contributory pension
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen – free soft drinks, tea, coffee, fruit
- Wellness allowance to keep you active

PURPOSE OF THE ROLE:

We are looking for an energetic, self-motivated - "can do" attitude individual to lead our friendly testing team working in a fast-paced environment. You will join a project which will expose you to the full software development lifecycle. The successful candidate will manage the testing team which may be over a few clients. The role involves quality, test advocacy and resolution of issues that impede the testing efforts. Contributing to Release Notes, documentation finding gaps in our testing strategy.

RESPONSIBILITIES:

- Managing a test team over several different clients
- Hosting standups with the test team
- Carrying out functional testing, integration testing and performance testing
- Test case execution and Test case management using JIRA Agile
- Raising, documenting and tracking test bugs in JIRA
- Communicating and working close with Project Managers
- Assessing good test/regression coverage and spot areas of weakness
- Work with the clients and maintain a good relationship with them.
- Ad hoc projects as required

REQUIRED SKILLS AND KNOWLEDGE:

Business Knowledge:

- Good understanding of Life and Pensions (New Business, Underwriting, Contract Servicing, Claims)
- Good understanding of the Software Development Lifecycle process

Test Knowledge:

- Documentation and testing quality metrics
- Prepare test plans and user stories, documentation
- Test execution best practices
- Regression testing methodologies
- Defect triage and defect re-test
- Performance testing

Technical Skills:

- Using MS SQL to write basic queries
- Selenium IDE experience (Ideal)
- Any Automation experience or API testing
- Proficient use of MS Excel

DESIRABLE SKILLS AND KNOWLEDGE:

People Skills:

- Strong leadership and mentorship skills
- A natural curiosity and good judgement
- Ability to use your initiative when solving problems.
- Patient and the ability to pay attention to detail
- Great communication skills – written and verbal
- Work in a dynamic environment with the ability to work under pressure
- Good team player
- Working effectively and efficiently to meet any internal or external deadline

Qualifications:

- Bachelor's degree (2.1 or above) in the following subjects would be preferable: Mathematics, Statistics, Actuarial, Computer Science, Information Technologies
- *We would expect the applicant to have ISTQB Test Foundation level (or higher) – but this will not be an eliminating factor, however they would be expected to pass the exam during the probation period.*

The individual must demonstrate a strong desire to learn and develop their skills.

To apply please contact us at bromley.recruitment@ipipeline.com with your full CV.
