

SYSTEM ANALYST

LOCATION: BROMLEY

POSITION TYPE: PERMANENT

At iPipeline, we pride ourselves on our culture. We believe in an enthusiastic atmosphere, encourage innovation, depend on creativity, and strive for success. We value our employees and understand that our continued success as a company relies heavily on the success of every individual. Our employees describe iPipeline offices as fun, energetic, 'can do', professional environments.

We empower our people and provide them with the opportunity to pursue personal growth and career aspirations. We work hard and play hard. We celebrate success.

As the market leader in our industry, we deliver ground-breaking and award-winning technology to the financial services industry. Working at iPipeline allows you to play a huge part in making it easier for our customers to protect and secure the financial futures of consumers' families.

YOU CAN ENJOY:

- Innovative, inclusive and focused environment
- Flexible working
- Work/life balance
- New, contemporary, open-plan office space
- Company matched pension benefits
- Generous Life and Critical Illness Cover
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen of free soft drinks, tea, coffee and fruit
- An annual wellness allowance to keep you happy and healthy

PURPOSE OF THE ROLE:

The Systems Analyst will be responsible for providing excellent client support through several activities across a range of Protection, Investment and Protection Products. The role entails delivering software solutions to our clients, in collaboration with other Analysts, Developers, and Project Managers to ensure that the agreed business requirements are met.

RESPONSIBILITIES:

- Undertake software configuration activities using our in-house software packages
- Understand business requirements to define configuration changes and verifying the success of changes through various testing activities
- Translate business requirements into system change specifications for use by development teams
- Using SQL/Excel to prove changes have been developed to spec
- Support clients through the lifecycle of the team's activities including design, build, test and implementation

REQUIRED SKILLS AND KNOWLEDGE:

Key Business Skills Required

- At least 2 years' experience of Investment and Protection products in a Business/Systems Analyst role.

Key Technical Skills Required

- Educated to degree level in a computing / analytical / statistical / mathematical discipline or relevant experience
- A Level Mathematics Grade A* - A
- Strong analytical and problem-solving skills with a logical mind

SKILLS:

Technical Skills

- Working knowledge of Microsoft Office tool suite including latest versions of Word, Excel and PowerPoint.
- Working knowledge of MS SQL

Personal Skills

- Enthusiastic with excellent problem-solving skills
- Showing initiative / self-motivated to get the job done and improve practices
- Great interpersonal skills - ability to converse with both internal and external customers
- Excellent written and verbal communication
- Helpful and friendly, thriving in front of a challenge with a strong desire to succeed

The individual must demonstrate a strong desire to learn and develop their skills.

DON'T HAVE EVERYTHING WE'VE ASKED FOR?

Don't worry.

You might not have everything listed above but you might have some valuable transferable skills and experience.

You might be returning from a career break or feel you have taken a wrong turn in your career.

At iPipeline, it's about you and what makes you tick, not ticking every box.

To apply please email Bromley.recruitment@ipipeline.com with your CV and covering note (don't forget to include those transferable skills).

For information on how we store applicant information, please see our [Job Application Privacy Policy](#).
