

DEVOPS ENGINEER

LOCATION: BROMLEY

POSITION TYPE: PERMANENT

At iPipeline, we pride ourselves on our culture. We believe in an enthusiastic atmosphere, encourage innovation, depend on creativity, and strive for success. We value our employees and understand that our continued success as a company relies heavily on the success of every individual. Our employees describe iPipeline offices as fun, energetic, 'can do', professional environments.

We empower our people and provide them with the opportunity to pursue personal growth and career aspirations. We work hard and play hard. We celebrate success.

As the market leader in our industry, we deliver ground-breaking and award-winning technology to the financial services industry. Working at iPipeline allows you to play a huge part in making it easier for our customers to protect and secure the financial futures of consumers' families.

YOU CAN ENJOY:

- Innovative, inclusive and focused environment
- Flexible working
- Work/life balance
- New, contemporary, open-plan office space
- Company matched pension benefits
- Generous Life and Critical Illness Cover
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen of free soft drinks, tea, coffee and fruit
- An annual wellness allowance to keep you happy and healthy

PURPOSE OF THE ROLE:

To build and support the infrastructure as code deployments for the SSG Digital platform both on premise and in the Cloud.

The role involves working with our onsite Platform Operations team to enhance and automate the SSG Digital platform deployments to AWS and other cloud platforms in the UK and US. It will also involve working with teams in both geographical locations.

This is a tremendous growth opportunity for a very bright, confident and energetic individual with a can-do attitude to join our team that is keen to learn and expand their horizons in a technical role focused on Dev/OPS.

RESPONSIBILITIES:

- Build/Configure and Deploy infrastructure into AWS, ensuring repeatable processes utilising Terraform code
- Create and maintain automation scripts to build and maintain AWS VPCs / AMI and network resources in the AWS cloud
- Working with SSG teams, look to migrate the existing platform to AWS cloud native technologies and containers
- Automate deployments and configurations of both the infrastructure and application stack
- Implement cloud monitoring solutions and look to automate repeat operational tasks

SKILLS:

Key Technical Skills Required

- Experience with containers – Docker/Kubernetes
- A solid foundation in Windows Server / AD Environments
- A solid foundation working in AWS
- AWS monitoring and automation experience – CloudWatch/Lambda/Systems Manager
- Previous experience migrating applications to AWS cloud native technologies
- PowerShell scripting
- Jenkins or similar orchestration knowledge
- Terraform / Terragrunt and Bash

DESIRABLE SKILLS AND KNOWLEDGE:

Technical Skills

- Docker, Kubernetes, Kubernetes Clusters (essential)
- Packer and Ansible technologies or equivalent
- Microsoft SQL would be an advantage
- Web Site Hosting – Microsoft IIS Services
- Source control platforms and principals: TFS, Git and GitHub
- Patch planning and deployment
- Security eg: Server hardening, Endpoint Security, WAF, Firewalls, Logging etc
- HA, Resilience, DR\BCM understanding and evidencable skills
- Programming background a benefit

Education

- 3+ years' experience in the industry (e.g. working for a hosting provider)
- Preferably a degree in Computer Science or equivalent from a reputable institution with a 2:1
- AWS Solutions Architect or DevOps certifications (preferable)

Personal Skills

- Enthusiastic with excellent problem-solving skills
- Showing initiative / self-motivated to get the job done and improve practices
- Great interpersonal skills - ability to converse with both internal and external customers
- Excellent written and verbal communication
- Helpful and friendly, thriving in front of a challenge with a strong desire to succeed

DON'T HAVE EVERYTHING WE'VE ASKED FOR?

Don't worry.

You might not have everything listed above but you might have some valuable transferable skills and experience.

You might be returning from a career break or feel you have taken a wrong turn in your career.

At iPipeline, it's about you and what makes you tick, not ticking every box.

To apply please email snaqvi@ipipeline.com with your CV and covering note (don't forget to include those transferable skills).

For information on how we store applicant information, please see our [Job Application Privacy Policy](#).
