

SOFTWARE DEVELOPER

LOCATION: BROMLEY

POSITION TYPE: PERMANENT

At iPipeline, we pride ourselves on our culture. We believe in an enthusiastic atmosphere, encourage innovation, depend on creativity, and strive for success. We value our employees and understand that our continued success as a company relies heavily on the success of every individual. Our employees describe iPipeline offices as fun, energetic, 'can do', professional environments.

We empower our people and provide them with the opportunity to pursue personal growth and career aspirations. We work hard and play hard. We celebrate success.

As the market leader in our industry, we deliver ground-breaking and award-winning technology to the financial services industry. Working at iPipeline allows you to play a huge part in making it easier for our customers to protect and secure the financial futures of consumers' families.

YOU CAN ENJOY:

- Innovative, inclusive and focused environment
- Flexible working
- Work/life balance
- New, contemporary, open-plan office space
- Company matched pension benefits
- Generous Life and Critical Illness Cover
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen of free soft drinks, tea, coffee and fruit
- An annual wellness allowance to keep you happy and healthy

PURPOSE OF THE ROLE:

Contributing to the development of our highly successful financial services software platform by building new function and evolving the existing codebase to resolve defects and make best use of new tools and technologies.

RESPONSIBILITIES:

The Software Developer will be involved in, but not limited to:

- Providing sophisticated solutions to clients on a range of platforms
- Working with Business Analysts to deliver new functionality and resolve defects
- Writing code in C#, HTML and JavaScript
- Writing SQL queries that are performant and scalable
- Analysing and debugging code in order to understand the behaviour of the system
- Working with the Senior Development team to validate technical designs
- Following a project plan and delivering tasks in a timely manner

SKILLS:

- Degree in Engineering / Computer Science or excellent 'A' level Grades in Science or Mathematics
- Understanding of object-oriented programming principles
- Practical, hands-on experience of C#, Html and JavaScript
- Some knowledge of SQL
- Understanding of SOLID principles
- Proactive, organised and able to work to deadlines
- Hands-on experience of writing SQL query and stored procedures
- Experience of using web service technologies, eg, Soap, Rest, JSON
- Experience of building web-based applications in web form or MVC or others

PERSONAL ATTRIBUTES:

- Enthusiastic with excellent problem-solving skills
- Showing initiative / self-motivated to get the job done and improve practices
- Good written and verbal communication
- Calm, helpful and friendly, thriving in front of a challenge with a strong desire to succeed

DON'T HAVE EVERYTHING WE'VE ASKED FOR?

Don't worry.

You might not have everything listed above but you might have some valuable transferable skills and experience.

You might be returning from a career break or feel you have taken a wrong turn in your career.

At iPipeline, it's about you and what makes you tick, not ticking every box.

To apply please email bromley.recruitment@ipipeline.com with your CV and covering note (don't forget to include those transferable skills).

For information on how we store applicant information, please see our [Job Application Privacy Policy](#).
