

BI DEVELOPER

CHELTENHAM

FULL TIME, PERMANENT, FLEXIBLE

At iPipeline, we pride ourselves on our culture. We believe in an enthusiastic atmosphere, encourage innovation, depend on creativity, and strive for success. We value our employees and understand that our continued success as a company relies heavily on the success of every individual. Our employees describe iPipeline offices as fun, energetic, 'can do', professional environments.

We empower our people and provide them with the opportunity to pursue personal growth and career aspirations. We work hard and play hard. We celebrate success.

As the market leader in our industry, we deliver ground-breaking and award-winning technology to the financial services industry. Working at iPipeline allows you to play a huge part in making it easier for our customers to protect and secure the financial futures of consumers' families.

YOU CAN ENJOY:

- Innovative, inclusive and focused environment
- Flexible working
- Work/life balance
- New, contemporary, open-plan office space
- Company matched pension benefits
- Generous Life and Critical Illness Cover
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen of free soft drinks, tea, coffee and fruit
- An annual wellness allowance to keep you happy and healthy

PURPOSE OF THE ROLE:

We have an exciting opportunity for a proven BI Developer to support our goal to help grow the protection industry through the use of data and analytics. Reporting to the Data Product Manager, you will work closely with all areas of the business to develop wide-ranging data-driven solutions.

RESPONSIBILITIES:

- You will develop new data products to varied clients across the industry. This will include dashboards, paginated reports, data extracts, predictive services and more.
- You will work closely with the Data Services team to hone requirements and manage your own workload to deliver on an ongoing product road map.
- You will work proactively with an inquisitive mindset to stay ahead of the curve and deliver a high-quality service.
- You will have a strong understanding of data regulations to ensure new products are compliant.
- You will build reports and dashboards to support the delivery of insight back to the internal business.
- You will develop processes that are scalable, automating wherever possible, and providing clear and repeatable documentation.
- You will work with the wider business to apply best practice for change management, leveraging tools and processes to ensure high quality deployments are made.
- You will be passionate about technology and upskill colleagues.

SKILLS/EXPERIENCE:

TECHNICALLY ABLE: We're looking for individuals with a strong technical background within the Microsoft BI stack: demonstrable experience working with SQL, SSRS and Power BI/DAX. Experience building ETL processes using SSIS or other technologies would be advantageous but not an essential.

EXPERIENCED: We need somebody who can hit the ground running, drawing from a broad experience in data analysis within a business context. If you have experience in financial services, even better.

NUMERATE: Insurance is a world driven by numbers; you will ideally have a degree level qualification in a numerate discipline. Machine learning experience would be an advantage.

SELF-STARTER: Driven by your passion to unlock the insights within data, you will be responsible for managing your own workload to deliver innovative solutions within agreed timescales.

- Experience of using SQL to perform advanced data analysis is essential
- Experience of building data models and dashboards in PowerBI/DAX is essential
- Experience in SSRS is a strong advantage
- Experience in ETL/SSIS is an advantage
- Numerate degree-level qualification is an advantage
- Experience of R/Python/Powershell is an advantage

DON'T HAVE EVERYTHING WE'VE ASKED FOR?

Don't worry.

You might not have everything listed above but you might have some valuable transferable skills and experience.

You might be returning from a career break or feel you have taken a wrong turn in your career.

At iPipeline, it's about you and what makes you tick, not ticking every box.

To apply please email cheltenham.recruitment@ipipeline.com with your CV and covering note (don't forget to include those transferable skills).

For information on how we store applicant information, please see our [Job Application Privacy Policy](#).
