

GRADUATE DATA ANALYST

CHELTENHAM

FULL TIME, PERMANENT, FLEXIBLE

At iPipeline, we pride ourselves on our culture. We believe in an enthusiastic atmosphere, encourage innovation, depend on creativity, and strive for success. We value our employees and understand that our continued success as a company relies heavily on the success of every individual. Our employees describe iPipeline offices as fun, energetic, 'can do', professional environments.

We empower our people and provide them with the opportunity to pursue personal growth and career aspirations. We work hard and play hard. We celebrate success.

As the market leader in our industry, we deliver ground-breaking and award-winning technology to the financial services industry. Working at iPipeline allows you to play a huge part in making it easier for our customers to protect and secure the financial futures of consumers' families.

Find out more at www.ipipeline.com/uk/

YOU CAN ENJOY:

- Innovative, inclusive and focused environment
- Flexible working
- Work/life balance
- New, contemporary, open-plan office space
- Company matched pension benefits
- Generous Life and Critical Illness Cover
- Perkbox membership (discounts and freebies)
- Competitive holiday allowance
- Well stocked kitchen of free soft drinks, tea, coffee and fruit
- An annual wellness allowance to keep you happy and healthy

PURPOSE OF THE ROLE:

We are looking for an energetic, self-motivated individual with a “can do” attitude to join our established data team during an exciting period of investment and growth. This is a really great opportunity for a recent graduate to learn in a fast paced and supported environment, utilising modern data tools and cloud infrastructure to enhance our data proposition.

ROLE EXPECTATIONS:

- You'll develop your understanding of the Personal Protection (Life Insurance) industry, iPipeline's business and products, and the Data product life-cycle.
- You'll refine your technical skills, initially working towards a (funded) certification in advanced SQL. You'll also develop your ability with reporting and analytics tools, such as Power BI, Python and SSRS.
- With the support of the Data Product Manager, and Senior Analysts, you'll work with quotation, application, underwriting, claim and lapse data to build and deliver products and services to industry clients and internal stakeholders.
- You'll communicate with internal and external customers to manage the delivery and development of data products and services.

SKILLS/EXPERIENCE:

- Qualified to degree level in either computer science or maths related subject.
- Strong demonstrable programming ability in any common language.
- An extra-curricular interest in Data Analytics.
- A high attention to detail and strong communication.

DON'T HAVE EVERYTHING WE'VE ASKED FOR?

Don't worry.

You might not have everything listed above but you might have some valuable transferable skills and experience.

You might be returning from a career break or feel you have taken a wrong turn in your career.

At iPipeline, it's about you and what makes you tick, not ticking every box.

To apply please email cheltenham.recruitment@ipipeline.com with your CV and covering note (don't forget to include those transferable skills).

For information on how we store applicant information, please see our [Job Application Privacy Policy](#).
